

# conVerd Board®

conVerd Board is a sustainable, fully recyclable rigid paper-based board. It is FSC® certified and is a great alternative to other plastic substrates for structural signage applications. conVerd Board incorporates 10% post-consumer waste to achieve maximum sustainability without sacrificing print quality or surface characteristics for critical P.O.P. applications. The product is moisture resistant and more dimensionally stable than other paper-based medias where heat and humidity are a factor.

## POPULAR USES

- Indoor and short term outdoor P.O.P. displays
- Trade show signage
- Interior signage
- Menu board
- Standees
- Hanging signage
- Custom packaging

## ADVANTAGES

- Environmentally friendly and 100% recyclable
- Responsible and economical alternative to other non-green substrates
- Easy to cut and assemble using traditional tools and fasteners
- Very high quality smooth printing surface
- Lightweight, yet strong and rigid
