Custom Printed Graphics

CUSTOM PRINTED INTERIOR ENVIRONMENTS

You name it, we can print it.
From ceiling tiles to ceramic,
canvas and concrete, the
possibilities are endless.

WALLPAPER

Custom durable commercial grade wallcoverings are attainable in several different finishes and textures.

WINDOW DÉCOR

Create privacy, control light or showcase single to double-sided, available in a wide variety of materials. Customize your space with special effects such as etched, frosted or stained glass.

WOOD & CORK

Natural materials offer the latest in interior décor. Cork, wood and others can deliver realistic, photographic quality on substrates up to two inches thick. Use these natural materials to cover walls, create custom shapes or as accents in your space.

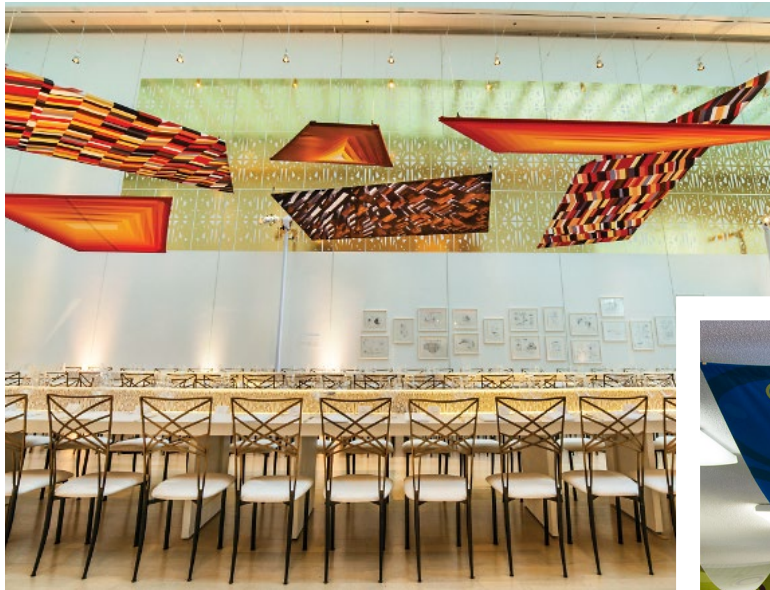

CUSTOM ACRYLIC WITH DIMENSIONAL EFFECTS

Custom printed acrylics provide a high-end feel to your décor project. Using first surface and subsurface printing, you can create unique 3D elements to add visual interest throughout a room. Acrylics can also be routed to various shapes and sizes and can even be used to create free standing objects or displays.

Source One Digital was one of the first digital printers in the United States to achieve the G7® certification. We use the most modern technology, process controls, techniques and industry standards required to ensure our prints are dialed in to precise colors. Our experienced color technicians will accurately print your image on whatever material selected. Need to hit a precise color? Contact the Source One Digital team!

FABRIC

With vibrant color and movement, the look and feel of fabric can bring life to your project. Create large-scale, eye-catching graphics or smaller pops of color that are all printed on wrinkle resistant and washable fabric.

METAL

Add an industrial feel to any space. Choose from a variety of thicknesses and laminate overlays with multiple installation options.

VINYL WALL COVERINGS

Vinyl wall graphics provide high-resolution, photographic quality prints that adhere to almost any type of surface, including rough concrete or brick. Various surface finishes are available with adhesives that are permanent, low tack, or removable.

VisiFLEX™

These fabric systems utilize several fabric options with sewn-in silicone beading inserted into custom frames or displays. Graphics can be single or double-sided. VisiFLEX™ systems can also be built to your specifications, and can include LED lighting.

The client can't stop giving us compliments on the wall covering. You killed it! Thanks so much!

-Anthony S., Facility Management

Let Us Help You!
